

COMPANY PROFILE

WHAT DO YOU KNOW ABOUT OUR COMPANY?

As a full-service engineering company, CivLanka's capabilities and experienced professionals lead projects through all process phases, from planning to completion and beyond.

CivLanka is engaged in many landmark projects in Sri Lanka and overseas. We firmly intend to expand its services in the construction industry, be one of the best engineering consortiums, and contribute to developing the country and the world.

WELCOME TO OUR COMPANY

ABOUT

US

We are a leading multidisciplinary firm specializing in Architecture, Engineering, Planning, and Construction management. Founded in 2019 and headquartered in Kandy, Sri Lanka, we deliver integrated design solutions that combine technical precision, regulatory compliance, and creative vision across residential, commercial, and industrial sectors.

We operate across Sri Lanka—including all Municipal Council areas and BOI zones—delivering comprehensive services island-wide. Our team also specializes in adapting documentation and design standards for international jurisdictions. At Civilanka, we bring deep technical proficiency across a wide spectrum of design and analysis platforms. Our visualization capabilities are powered by industry-leading tools ensuring photorealistic output and immersive client presentations.

Our team is well-versed in global design codes and standards, including IS 456, 875, 1893, 800-1984, 800-2007, 801-LGSS, ACI 318, ASCE, AISC 360-16, AISC 341, AWC NDS, IBC, BS-EN, AS/NZS, and Canadian codes, enabling seamless adaptation to diverse regulatory environments. We offer PE stamping services across multiple U.S. states—Texas, Arizona, California, Florida, Utah, Idaho, Nevada, North Carolina, Massachusetts, Montana, Indiana, New Mexico, New York, Maryland, and Virginia—as well as P.Eng. certification for Ontario, British Columbia, Nova Scotia, and Alberta.

Within Sri Lanka, our surveying capabilities include DGPS, Total Station, and drone-based mapping, delivering high-accuracy digital outputs tailored to local terrain and planning requirements. Every project we undertake is grounded in internationally benchmarked workflows that prioritize safety, performance, and design integrity.

CIVILANKA

VISION & MISSION

Vision

To lead the transformation of the built environment in Sri Lanka and global markets by uniting design creativity with engineering rigor and code excellence—delivering resilient, sustainable, and human-centered places our clients and communities trust.

Mission

Our mission is to provide exceptional engineering consultancy services that exceed client expectations. We strive to deliver cutting-edge, sustainable, and cost-effective solutions that enhance safety, efficiency, and environmental responsibility in every project we undertake. By fostering collaboration, innovation, and a client-centric approach, I aim to be a driving force in shaping a more resilient and sustainable future."

SCOPE OF SERVICES

01

02

03

04

Architectural Service

- Architectural Housing & Commercial Designs
- 3D Rendering, Rendering & Visualization
- Landscape Designing
- Measured Drawings
- Interior Designing
- Housing & Commercial Building Construction
- All kinds of Housing Construction
- All kinds of Finishing Works
- Renovations
- Swimming Pools
- Landscaping
- Driveways, Walkways & Fences
- Turfing & Floral Planting

Structural Service

- Structural Designs and Drawings
- Soil Investigation Tests
- Design Reports
- Chartered Engineer & Council Approval
- Concrete Road Construction
- Tar Road Construction
- Asphalt Road Construction
- Drainages
- Culvert Construction
- Helical/ground-screw foundations (mapped from signature capabilities in earlier content)

MEP Service

- Building Services Engineering (Mechanical, Electrical, Plumbing & HVAC)
- Electrical Wiring
- All kinds of Plumbing Works
- Installation of Automated Door & Lighting Systems
- Installation of Solar Panels
- Smart House Planning
- Installation of Air Conditioners & CCTV
- Sewerage Systems
- Pipe Laying

Construction Service

- Construction & Project Management
- Green Building Consultancy
- Project Cost Monitoring
- Project Progress Monitoring & Reporting
- Engineering Research Consultation
- Culvert Construction
- Sewerage Systems
- Swimming Pool Construction & Landscaping
- Quantity Surveying
- Preparation of Detailed BOQ's
- Cost Estimation
- Financial Monitoring & Reporting

TARGET FUTURE

CivLanka is a comprehensive engineering consulting firm specializing in architecture, structural, and mechanical engineering services. We understand the intricate relationship between these disciplines and leverage our collaborative approach to tackle complex challenges efficiently. Our team of highly qualified engineers is passionate about exceeding expectations and building lasting relationships with our clients.

Our target audience comprises:

Mid-sized to large contractors and developers undertaking commercial, residential, and industrial projects requiring comprehensive architectural, structural, and mechanical engineering services. Design firms seeking collaboration for complex projects beyond their core architectural expertise, particularly for structural and mechanical engineering aspects. Property owners and managers of large commercial and industrial buildings requiring upgrades, expansions, or specialized engineering assessments. Local and regional government agencies responsible for infrastructure projects, public buildings, and environmental engineering initiatives.

COLLABORATIVE BENEFITS

We propose a collaborative partnership that leverages both of our strengths and create outstanding and successful construction projects.

Diverse and Comprehensive Services: Our wide range of services covers all aspects of engineering and architecture, saving you time and effort in coordinating multiple consultants.

Expertise and Innovation: Our team of professionals brings a wealth of expertise and innovative solutions to elevate your construction projects to new heights and to successfully deliver any complex and challenging projects.

Cost and Time Efficiency: Our collaborative approach fosters clear communication, optimizes designs quality to deliver cost-effective solutions minimizing potential delays and ensuring a smooth project flow.

Sustainability and Green Practices: Our commitment to sustainable and eco-friendly designs aligns with modern construction practices and regulations.

Competitive Edge: A partnership between our dynamic startup and your established company would create a powerful combination, offering unique value propositions to clients and setting us apart in the industry.

**Based on completed projects and projected pipeline

1

Comprehensive Structural and Architectural Designs

We provide detailed structural and innovative architectural designs that ensure the highest levels of safety, aesthetics and meet the project's specific requirements.

2

Project Management and Quantity Surveying

Project Overviews are the first thing potential clients see when they land on your site. They allow you to highlight why they should hire you and what results they expect.

3

Sustainability Consulting

Collaboratively integrating sustainable and green building practices materials, and technologies into the projects for environmental benefits.

4

Mechanical, Electrical, and Geotechnical Engineering

Our team will handle all aspects of mechanical, electrical, and geotechnical engineering to meet project requirements

5

Quality Assurance

Providing meticulous quality assurance during the construction phase to ensure adherence to design specifications and project excellence.

6

Cost-Effective Solutions

Collaboratively integrating sustainable and green building practices materials, and technologies into the projects for environmental benefits

LET'S WORK!

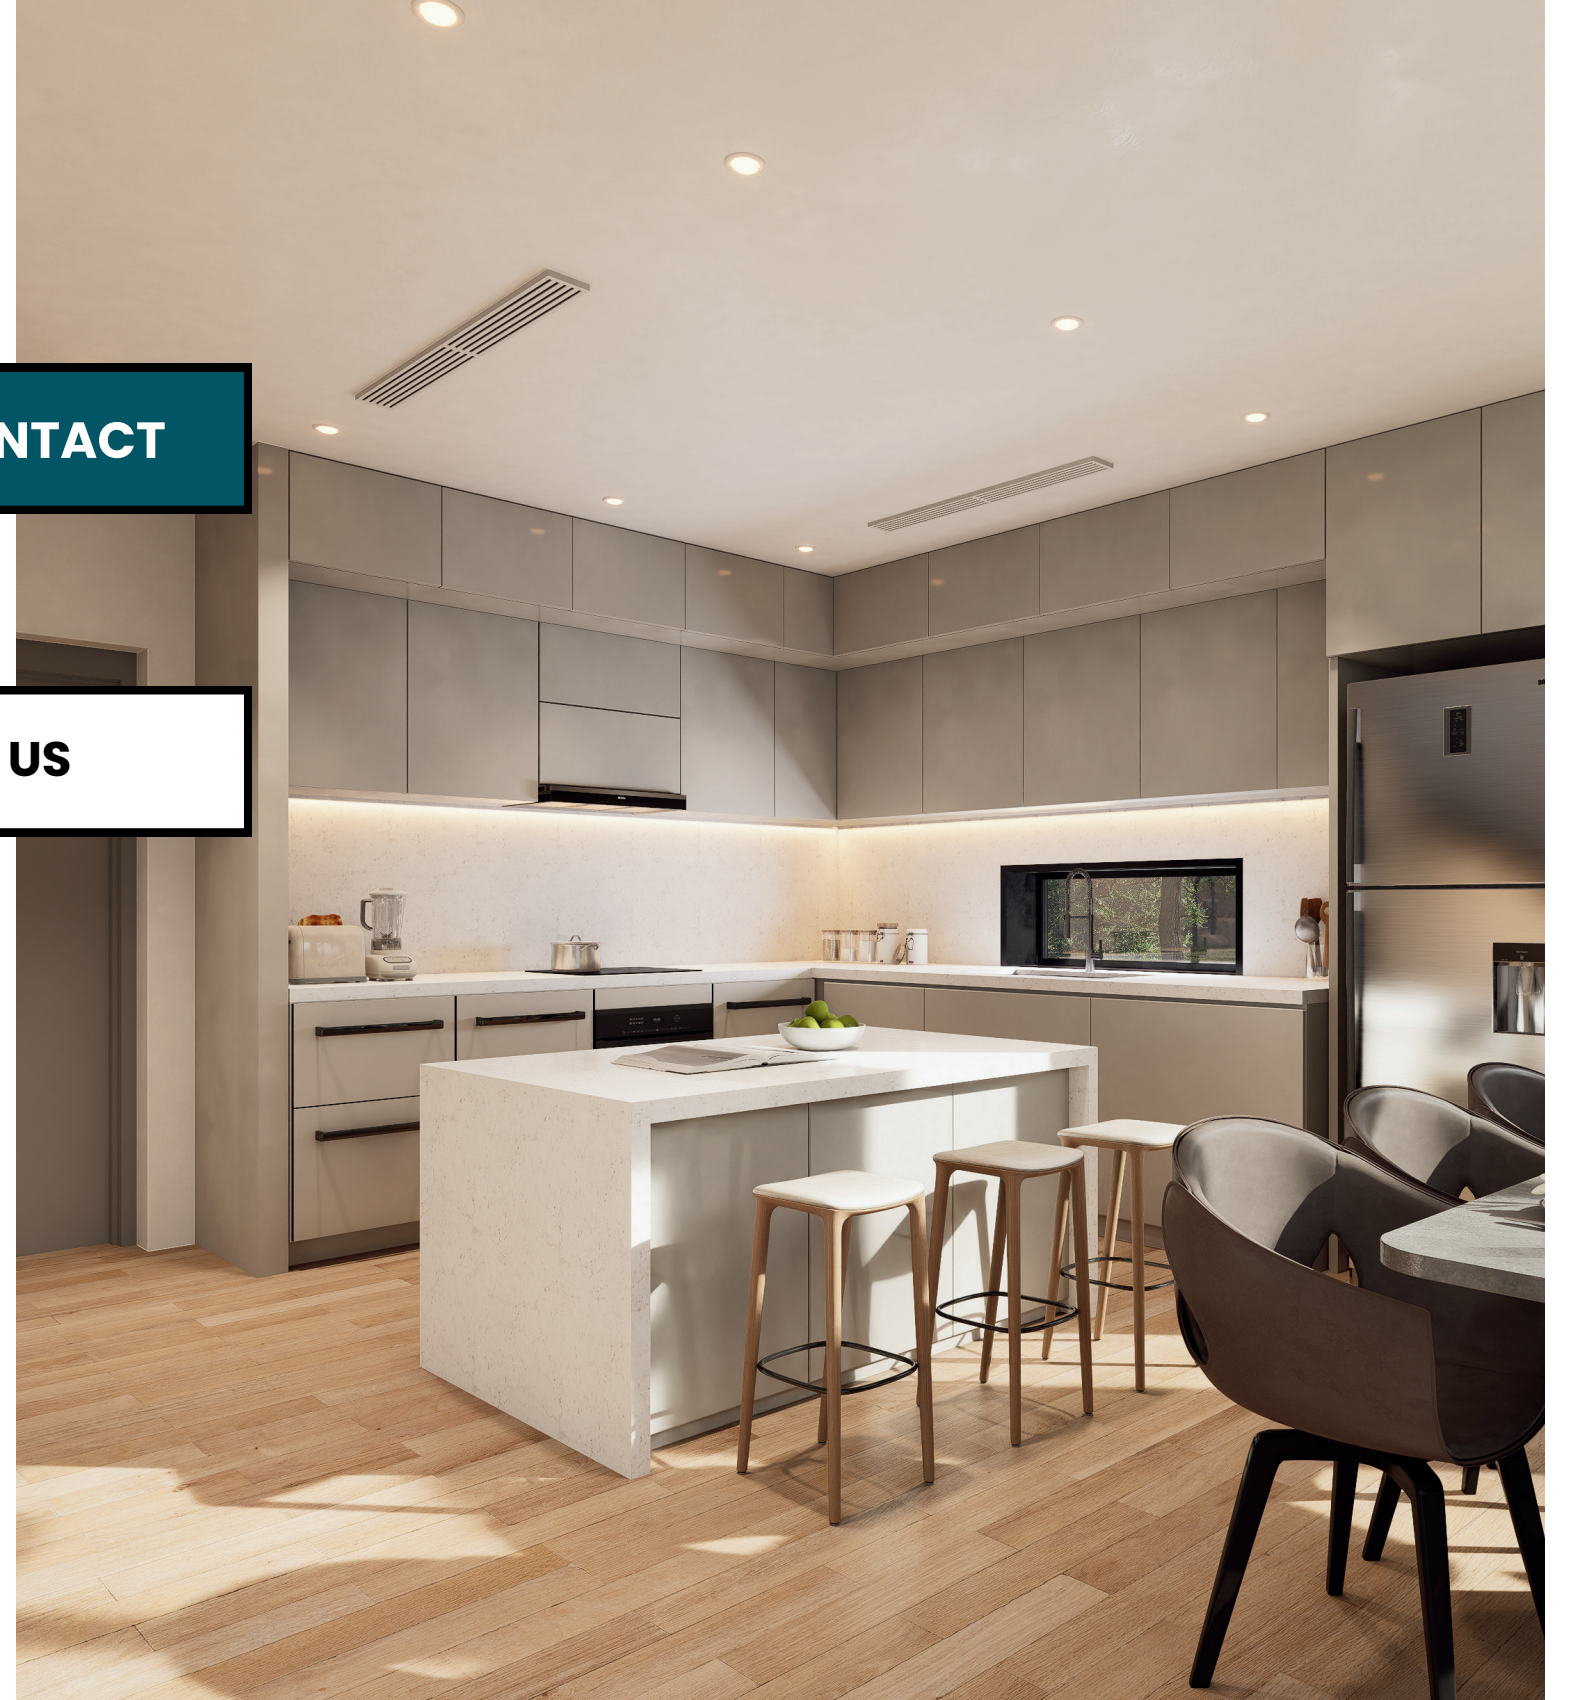

We at Civilanka, are thrilled at the prospect of collaborating to create remarkable construction projects that set new standards of excellence in the industry. Our diverse range of engineering and architectural services, combined with your esteemed company's reputation for delivering top-quality projects, presents a powerful opportunity for collective growth and success.

With a client-centric approach and a strong focus on sustainability, our collaboration promises to yield outstanding results that not only meet but exceed client expectations. Together, we can optimize project performance, streamline processes, and ensure cost and time efficiency, setting the stage for transformative achievements.

We believe that our shared vision for innovation, sustainability, and customer satisfaction aligns seamlessly, providing a solid foundation for a successful partnership. Our combined strengths, expertise, and dedication will enable us to create iconic and sustainable structures that positively impact communities and the environment.
